EDUCATION

Sep. 2011 – Sep. 2017 **Boğaziçi University, Istanbul**
Double Major, Graduated with Honors Degree

- *Management Information Systems / Tourism Administration*

WORK

Sep. 2017 – Apr. 2018 **Zekiai.com – A chatbot management platform**
Cofounder – Software Developer

- Built a platform to create and manage chatbots, worked with Securitas (one of the largest security companies in the world) to deploy a chatbot solution.

Dec. 2015 – Jun. 2017 **Marketinf.com – My VC backed SaaS startup that allowed people to create online marketplaces**
Cofounder

- Found investors, hired and managed people, handled customer support and online marketing activities.
- My work included planning the product, building APIs/UIs, writing internal tools and documentation.
- Built an infrastructure on AWS with Docker to allow people instantly create their online marketplaces.

Aug. 2014 – Current **Freelance Developer**

- Built web & mobile applications using popular JavaScript frameworks such as Vue/React/Angular.
- Developed the backend for these applications using Node.js and MongoDB.
- Created scrapers, data analysis tools & prediction models using Rabbitmq/Python.
- Served clients ranging from small companies to big organizations such as Sodexo and World Wildlife Fund.

Jun. 2013 – Apr. 2014 **Metrekare.com – A VC backed startup that aimed to be the Zillow of Turkey**
Front-End Developer

- Used many cutting-edge front-end web technologies such as Backbone.js, Bower, Grunt, Google Maps API, Bootstrap and Foundation to develop and maintain both the desktop and the mobile versions of our web application with our team. Used git and Bitbucket, participated to code reviews, coded Chrome extensions.
- Besides technical expertise, as employee #2 at Metrekare.com, I have learnt a lot about how startups work, improving continuously, and establishing a company culture from scratch.

Dec. 2011 – Sep. 2012 **Utopic Farm, Rhino Runner, Katu – Several digital agencies in Istanbul**
Jr. Front-End Developer

- Improved my design and development skills. Worked closely with customers.

SIDE PROJECTS

2016	Who is Hiring++	Hacker News's monthly Who is Hiring? pages, automatically filtered.
2015	HackerFAQ.com	Instant answers for your programming related questions.
2011	Bogazici.co	A service allowing students to find each others' departments in my university.

TALKS

2016	Crowdup	Talking at a panel at Istanbul Technical University about our startup, Marketinf.
2015	Garaj Talks	Gave a talk about how to organize hackathons people would love.
2014	jstanbul	Gave a talk about game development in JavaScript.

EVENTS

Jun. 2015 **T-hackathon, Middle East Technical University**

- Coded “pay2chat” in 48 hours, a marketplace + chat app for people to pay professionals to chat.

Dec. 2010 – Jun. 2011 **Salih Zeki Mathematics Project Contest, Darüşşafaka Schools**

- Completed a solid geometry project in high school and was one of the finalists.

Jul. 2010 **Game Making Camp, Özyeğin University**

- Improved my programming skills and coded some simple games in “Processing” language.

PERSONAL

Born on Jul. 5 1993, in Istanbul. I speak Turkish and English. As a self-starter, I love to learn and think about human nature, computers, and the evolution of things in general. Technologies I frequently use in my work include:

git, JavaScript [Node.js, Vue, React, Angular], Java, Python, Bash Unix Shell, mongoDB, MySQL, Rabbitmq, AWS, Docker, HTML, CSS, Sass
